

Anas Ahmed

Enterprise Mobile Engineer

774-300-7831 | anas.ahmed10@outlook.com | anasahmed10.github.io | [LinkedIn](#) | [GitHub](#)

TECHNICAL SKILLS

Languages: Kotlin, Java, JavaScript, Swift, Python, C#, C++, C, SQL
Android: Android SDK, Jetpack Compose, Coroutines, Flow/StateFlow, ViewModel, Room, WorkManager, Navigation, Hilt/Dagger, MVVM
Testing: JUnit, Espresso, MockK
Systems/Delivery: Hardware SDK/API Integration, REST/JSON APIs, Local Networking, NFC, Gradle, Git, Jenkins, Azure DevOps, Splunk

PROFESSIONAL SUMMARY

Enterprise mobile engineer with 5+ years building Android and cross-platform software around printers, scanners, payment terminals, POS systems, and store networks. Strong in Kotlin/Java modernization, device integration, automation, observability, and production rollout reliability.

EXPERIENCE

- | | |
|--|--|
| Software Engineer II, Mobile Staples | October 2022 - Present
Framingham, MA |
| <ul style="list-style-type: none">Owned Android architecture and primary implementation for modernizing a high-volume self-service print application from Java/Android 7 to Kotlin/Android 13, enabling multilingual, Google Drive, and Dropbox workflows.Built production Android workflows across Xerox AltaLink C8145/C8245 printers, scanners, Ingenico Lane 3000 and Verifone payment terminals, PIN pads, and store networks, including Apple Pay and Google Pay support.Helped design a four-stage local payment-terminal update that reached 800+ locations with zero production failures and eliminated onsite vendor-technician cost for the rollout.Built real-time printer status-light monitoring and Splunk dashboards for issue duration, frequency, and production diagnosis. | |
| Sr. Mobile Device Software Developer General Motors | July 2021 - July 2022
Remote |
| <ul style="list-style-type: none">Developed Android, iOS, and React Native features for General Motors mobile applications, including authentication, push-notification routing, and a Universal Deep Link Handler for Android.Built a web dashboard using Jenkins data to track Android and iOS app-size changes and deployed mobile build and release pipelines in Azure DevOps. | |
| Founder and CEO Syntax Tutoring | August 2021 - January 2024
Foxborough, MA |
| <ul style="list-style-type: none">Founded a programming tutoring company and designed practical Android and web curricula, interactive applications, lectures, and hands-on labs. | |

PROJECTS

- Barcode Scanner** | Kotlin, Jetpack Compose, MVVM, Coroutines, NanoHttpd, LiveData
- Built the company's first Kotlin Android application with a tablet-hosted NanoHttpd server and physical scanner, automating 65 POS tests, increasing POS automation by 55%, and winning first place in the 2025 company hackathon; provide technical direction for its maintainer group of 4 to 8 engineers.
- TabTally** | Kotlin Multiplatform, Compose Multiplatform, ML Kit, Vision, Groq, SQLDelight | [Project Link](#)
- Built a shared Android and iOS receipt-splitting product using ML Kit, Apple Vision, Groq extraction, and SQLDelight persistence; submitted for Apple App Store review and in Google Play external testing.
- SmartShopper** | Custom GPT, Prompt Engineering, Web Research | [Project Link](#)
- Designed and deployed a custom GPT shopping assistant for targeted clarification, product research, budget-to-premium comparisons, purchase-ready links, and value-tradeoff analysis.

EDUCATION

University of Massachusetts, Lowell	Lowell, MA
Bachelor of Science in Computer Science	Dean's List Recipient
