Android Logistics / Warehouse Automation Engineer | Tablets, Scanners & Edge Apps

SUMMARY

Android engineer focused on tablet-based operational software, scanner automation, local networking, and hardware-integrated workflows. Strong fit for logistics, warehouse automation, IoT, field-device, and retail operations roles where Android applications connect workers, inventory workflows, and physical devices.

TECHNICAL SKILLS

Languages: Kotlin, Java, JavaScript, Swift, Python, C#, C++, C, SQL

Android/Edge Apps: Android SDK, Jetpack Compose, Coroutines, MVVM, LiveData, NanoHttpd, Retrofit, Gradle, React Native

Automation/Devices: Barcode Scanners, Tablet Apps, Local Networking, Hardware SDK/API Integration, Firebase, Splunk, Jenkins, Azure DevOps

EXPERIENCE

Staples · Software Engineer II, Mobile

Oct. 2022 - Present

Framingham, MA

- Owned Android architecture and modernization from Java/Android 7 to Kotlin/Android 13 for enterprise device workflows used across physical retail environments.
- Built and productized Android workflows across printers, scanners, payment terminals, PIN pads, and local store networks supporting enterprise deployments across 500 - 1,000 retail locations.
- Helped deliver a staged local PIN pad upgrade process with zero production failures across 800+ locations, reducing field-service dependency for distributed device updates.
- Built real-time printer status light monitoring integrated with Splunk, providing operational dashboards for issue duration, frequency, and hardware troubleshooting patterns.
- Worked across QA, field technician, vendor, and management stakeholders to debug device/application issues in production retail environments.

General Motors · Sr. Mobile Device Software Developer

Jul. 2021 - Jul. 2022

Remote

- Built a web dashboard to track Android and iOS app sizes, integrated Jenkins build pipeline data, and deployed build/release pipelines in Azure DevOps for mobile platform visibility.
- Created a Universal Deep Link Handler in React Native to consolidate deep link management, improve user flow, and simplify future mobile development.

Syntax Tutoring · Founder and CEO

Aug. 2021 - Jan. 2024

Foxborough, MA

- Founded a programming tutoring company and designed practical web and Android curricula, interactive Android test applications, lectures, and hands-on lab assignments.

PROJECTS

Barcode Scanner | Kotlin, Jetpack Compose, MVVM, Coroutines, NanoHttpd, LiveData

- Built the company's first Kotlin Android application with a self-hosted local server on a tablet and scanner for POS barcode automation; automated 65 test cases, improved POS automation by 55%, and won first place in the 2025 company Hackathon.

Yardscape | Kotlin, Java, MVVM, Coroutines, Volley, Firebase

- Engineered an Android marketplace application using Java, Kotlin, MVVM, Firebase authentication/storage, and API-backed listing workflows for browsing and posting yard sale listings.

EDUCATION

University of Massachusetts, Lowell · Bachelor of Science in Computer Science

Dean's List Recipient
